

Who we help:

Young carers: There are 166,000 young carers in England. Many of these children will have the primary care responsibility for a loved one suffering from a terminal, or chronic illness. This includes helping them with personal care, getting them dressed, helping them to eat and doing household chores. Many children will have been in a caring role, 365 days a year, seven days a week, from as young as five years old.

Vulnerable children: Many of the vulnerable children we care for live with family members who struggle with an alcohol or substance addiction. For these children, life can be especially chaotic and frightening.

"If I had one wish, it would be for my mum not to have cancer and for all of my family to live at Honey-pot House"

Katie, aged 7.
